

The SIMID Project was presented to some of the key players of the A&D Industry on June 20th, 2013, during the 50

th

International Paris Air Show Le Bourget.

The audience composed of the representatives of the French Direction Générale de l'Aviation Civile (DGAC), large companies, SMEs and the Bureau de la Normalisation de l'Aéronautique et de l'Espace (BNAE) showed a great interest to the project by asking several questions on its dual nature (civil/military) and the standardization of data.

The partners would like to thank the audience for attending and Aerospace Valley for the organization and hosting on its booth of this event.
